

This week's display highlights some of our collection's most practical and useful guides for dissertation and thesis writing, as chosen by students. They offer a variety of advice on how to plan an essay, make your arguments persuasive, and tailor your academic writing to make your work the best it can be. These are here to be borrowed, so if you see something relevant feel free to check it out! Many of these books are also available as e-resources on SOLO too.

The Oxford Students website also has some fantastic online resources for dissertation writing, including the best way to plan your time around Trinity term. Search 'Essay and dissertation writing skills' for a selection of helpful guides (<https://www.ox.ac.uk/students/academic/guidance/skills/essay>).
